

## SET A NEW STANDARD OF EXCELLENCE BY PROVIDING EXCEPTIONAL QUALITY AT AN INCREDIBLE VALUE. ALL PRODUCTS ARE PRODUCED FROM VIRGIN POLYPROPYLENE IN A MANUFACTURING FACILITY THAT IS ISO-9001 CERTIFIED

- MICROCENTRIFUGE TUBES offer easy-snap caps and graduations at every 100 μL for volume estimation.
- PIPETTE TIPS feature low-retention properties to make routine pipetting a breeze.
- PCR TUBES, STRIP TUBES, & PLATES provide optimum heat transfer and universal cycler compatibility.

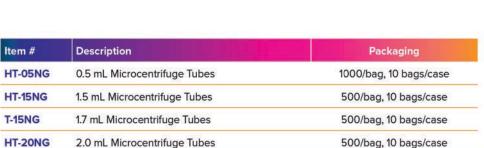

## Paradigm® Microcentrifuge Tubes

### **FEATURES & BENEFITS:**

- Rated to 20,000 x G.
- Ultra-Pure, virgin polypropylene delivers crystal optical clarity ensures maximum sample visibility.
- · Easy to open and close cap,
- · designed to facilitate a simple and secure seal.
- High contrast graduations every 100  $\mu L$  facilitate more accurate volume estimation.
- Autoclavable.
- · Recommended Temperature:
  - · Maximum for all tubes is 121°C.
  - · Minimum for all tubes is -90°C.
- · RNase, DNase, DNA, and PCR inhibitor-free.

### Paradigm® Pipette Tips

### A NEW STANDARD IN LIQUID HANDLING CONTROL

Paradigm Pipette Tips were created to improve pipetting accuracy while also increasing throughput. The innovation begins with a proprietary resin that ensures the sample will not bind to the tip so it is dispensed completely. Physical design characteristics, like thin walls and a finely tapered tip point, facilitate sample release and eliminate the need to touch off the pipette tip.

### PARADIGM FILTERED TIPS FEATURES & BENEFITS:

Paradigm Filtered Pipette Tips offer an extra level of confidence and control by providing a barrier between the nose cone of the pipettor and the sample.

#### THE PARADIGM FILTER MEMBRANE:

- Composed of high-density polyethylene (HDPE).
- Contains no additives that can contaminate samples if encountered.
- Provides a barrier against contamination, but will not impede airflow.
- Hydrophobic properties prevent absorption of samples.

Reload System

## Paradigm® Reload System 🔘

### **DESIGNED TO SIMPLIFY REFILLING EMPTY RACKS**

No special alignment tools are required to quickly transfer a fresh set of tips to an empty rack—simply lift and load! Paradigm Reloads are also sympathetic of the environment and convenient to store, with stacked refills generating far less lab waste and requiring less shelf space than racked product.

The Paradigm Reload System is housed in paperboard packaging, making it widely accepted by most institutional recycling preferences and processes.

Reload grids are imprinted with tip size and lot number data, visible even when seated inside the rack.

Volume-specific colors make reloads easy to identify and replace.

The Paradigm rack was designed to elevate the tips relative to the base in order to facilitate offset pipetting.

Paradigm racks are robustly designed to withstand multiple autoclave cycles.

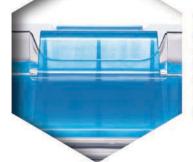

Latch design enables easy one-handed operation as well as a secure close when not in use.

Racks are labeled with volume and lot information for easy identification. Labels are autoclavable and recyclable.

Tabs on the ends of reload grids are manufactured to the identical height of the box, so as to not interfere with multichannel pipettors.

## Paradigm® Low-Retention Tips

### **LOW-RETENTION PIPETTE TIPS**

- · Produced from virgin polypropylene.
- · Complete release is ensured by a proprietary resin.
- HDPE, hydrophobic barrier on Filtered Tips eliminates contamination without obstructing airflow.
- Paradigm Reloads offer a convenient, economical, and environment way to refill & re-use racks.
- RNase, DNase, DNA, and PCR inhibitor-free; sterile pyrogen-free.

Item #	Volume	Graduations	Description	Packaging
RPT-10XLNS	10 μL XL	1, 2 & 10 μL	Racked	10 racks/pack, 5 packs/case
SRPT-10XLNS			Racked, Sterile	10 racks/pack, 5 packs/case
SRPT-10XLNSF			Racked, Sterile, Filtered	10 racks/pack, 5 packs/case
RLD-10XLNS			Paradigm Reloads	10 reloads/pack, 10 packs/case
PT-10XLNS	0		Bulk	1000 tips/pack, 10 packs/case

### STANDARD PIPETTE TIPS

Paradigm Standard Tips are suitable for applications or samples that do not require ultra-low retention properties.

Item #	Volume	Description	Color	Packaging
PT-10N	10 μL	Universal-Fit, Bulk	Natural	1000 tips/bag, 10 bags/case
PT-10XLN	10 μL XL	Universal-Fit, Extra-Long, Bulk	Natural	1000 tips/bag, 10 bags/case
PT-200Y	200 μL	Beveled, Bulk	Yellow	1000 tips/bag, 20 bags/case
PT-1000B	1000 μL	Graduated, Bulk	Blue	1000 tips/bag, 10 bags/case

# Paradigm® Light-Ejection Force LTS®-Style Pipette Tips

EXPERIENCE EXCELLENCE WITH THE PERFECT DROP-IN REPLACEMENT FOR YOUR LTS PIPETTORS

We are proud to manufacture Paradigm LTS in the USA and are also committed to sustainability, using proprietary resin in the rack grids and boxes, and 100% virgin polypropylene in the tips and lids for optimum clarity and purity.

- Compatible with Rainin® single- and multi-channel LiteTouch® pipettors.
- · Light force required to add or eject tips.
- Available in racked, sterile, filtered sterile, and reload varieties.
- · Tips are made from medical-grade virgin polypropylene.
- Racks and grids are made from our exclusive resin 50% post-consumer recycled polypropylene reduction of up to a 30% reduction in the use of virgin polypropylene!

## Paradigm® PCR Tubes

### **FEATURES & BENEFITS:**

- · Optically-clear caps allow the fluorescence signal to pass through freely.
- Ultra-thin walls provide efficient thermal transfer and maximum yield, without crushing.
- Single interwell linkage on strip tubes make it easier to split into smaller sections.
- Angled attached caps on strip tubes prevent lids and hinges from interfering with each other.

 Individual PCR tubes feature evaporation-resistant, easy-to-open-and-close lids that prevent sample loss.

 Conveniently packaged in reclosable bags to minimize risk of contamination.

- High clarity resin facilitates sample visualization.
- RNase, DNase, DNA, and PCR inhibitor-free.

### COMBO PACKS: STRIP TUBES & SEPARATE STRIP CAPS

Item #	Volume	Description	Packaging	
T-028C5N	0.2 mL	8-Strip Tubes & Clear, Flat Caps	125 strips/pack, 10 packs/case	
T-028C2N	0.2 mL	8-Strip Tubes & Clear, Dome Caps	125 strips/pack, 10 packs/case	
T-018C5N	0.1 mL	8-Strip Tubes & Clear, Flat Caps	125 strips/pack, 10 packs/case	

### STRIP TUBES WITH ATTACHED CAPS

Item #	Volume	Description	Packaging
T1C-028N	0.2 mL	8-Strip Tubes with Attached Dome Caps	120 strips/pack, 10 packs/case
T5C-028N	0.2 mL	8-Strip Tubes with Attached Flat Caps	120 strips/pack, 10 packs/case
T7C-028N	0.2 mL	Rigid 8-Strip Tubes with Individually- Attached Flat Caps	120 strips/pack, 10 packs/case
T8C-018N	0.1 mL	Rigid 8-Strip Tubes with Individually- Attached Flat Caps	120 strips/pack, 10 packs/case
T8C-018W	0.1 mL	Rigid 8-Strip Tubes with Individually- Attached Flat Caps, White	120 strips/pack, 10 packs/case

### INDIVIDUAL PCR TUBES

Item #	Volume	Description	Packaging	
TC-02N	0.2 mL	0.2 mL Dome Cap 1000/pack, 10		
TC2-02N	0.2 mL Frosted Flat Cap 1000/pack		1000/pack, 10 packs/case

## Paradigm® PCR Plates

### **FEATURES & BENEFITS:**

- · Broad thermal cycler compatibility.
- · Ultra-thin, uniform wells ensure optimal heat transfer.
- · High-contrast, black alphanumeric indexing.
- · Well ridges reduce sample evaporation when sealing with film, foil, or strip caps.
- Manufactured from pure, virgin polypropylene (meets FDA 21 CFR 177.1520 & USP Class VI).
